ENDORSEMENT LETTER

This is to confirm that The Association Rheumatologists of Ukraine (ARU, http://www.rheumatology.kiev.ua/) officially endorses the Mediterranean Journal of Rheumatology (MJR, https://www.mjrheum.org/) as a valuable source of evidence-based information for rheumatologists, physiatrists and internal medicine specialists with interest in prevention and treatment of rheumatic and musculoskeletal disorders.

The MJR is a reliable platform for distributing cutting-edge knowledge in the field and strengthening collaboration between rheumatology societies in the Mediterranean and Black Sea region. The ARU strongly encourages its membership to read MJR articles and use them for research, clinical practice, and lecturing.
