Dear Editors,

On behalf of the Ukrainian Association of Osteoporosis, I am happy to endorse the Mediterranean Journal of Rheumatology (MJR) as a valuable platform for scientific exchange and a tool of strengthening important cooperation among rheumatologists and osteologists around the world. This journal will be used by the Association's members and affiliated researchers in Ukraine for reference and instruction purposes as well as for publishing latest findings and organizing common endeavors in the field of medicine.

President of the Ukrainian Association of Osteoporosis
